

Onkwehón:we Rising

An indigenous perspective on Third Worldism and revolution

Onkwehón:we Rising is a revolutionary pan-Onkwehón:we (indigenous “north amerikan”) nationalist project. Its primary focus is building support for and popularizing the existence of pan-Onkwehón:we struggles against ongoing colonization, genocide and ecocide in Occupied Turtle Island (the so-called “united states” and “kanada”) with an eye towards the development of a genuine broad-based Onkwehón:we national liberation movement.
